# SUPERINTENDENT'S REPORT

To the New Durham School Board and Citizens:

Herewith I respectfully submit my first annual report as the superintendent of the New Durham schools. It is designed (1) to give you the most important statistics for the past school year as they have been gleaned from the records, (2) to review briefly the progress of the schools from July 1, 1934, to February 1, 1935, and (3) to discuss briefly a few of the immediate and future needs of the school as they appear to me.

STATISTICS FOR THE SCHOOL YEAR ENDING JUNE 30, 1934

| | |
|---|---|
| Number of pupils registered | 75 |
| Average number of half days schools were in session (State Ave 337.32) | 336 |
| Average membership | 63 |
| Average attendance | 58 |
| Percent of attendance (State Average 95.3) | 92 |
| Average number of half days each pupil was in school (State Ave. 320.89) | 309.12 |
| Pupils not absent nor tardy | 5 |
| Cases of tardiness | 32 |
| Average number of tardinesses per pupil (State Average 0.9) | .43 |
| Non-resident pupils | 4 |
| Pupils transported at district expense | 20 |
| Visits by superintendent | 89 |
| Average number of visits per teacher by supt. | 29.6 |
| Visits by citizens | 60 |
| Visits by school board members | 8 |
| Meetings of the school board | 12 |
| Number of pupils promoted | 58 |
| Number not promoted | 6 |
| Percent not promoted (State Average 6.53) | 9.38 |

These figures are not significantly different from those of the previous year. As can be seen from the above table, the record of tardinesses, as compared with the state average is commendable, but the percentage of attendance was not up to the state average. It is possible that the excessive number of absences from school may have been at least partly accountable for the high number of non-promotions.

ROLL OF HONOR FOR ATTENDANCE

The following five pupils, as compared with three for the year before, were neither absent nor tardy for the school year ending June 30, 1934: Christina Berry, George E. Bickford, Cecil Laney, Marshall Rollins, and Shirley Rollins.

CENSUS SEPTEMBER 30, 1934

| | | |
|---|---|---|
| Number of resident children 5 to 16 in local schools | 77 | |
| Number 5 to 16 in high school outside the district | 7 | |
| Number 5 to 16 in elementary schools outside the district | 0 | |
| Total number 5 to 16 in some school | | 84 |
| Number 5 to 8 not in school | 3 | |
| Number 8 to 14 not in school | 0 | |
| Number 14 to 16 not in school | 2 | |
| Total number of children 5 to 16 not in some school | | 5 |
| Total number of resident children 5 to 16 | | 89 |

As the census figures for September, 1933, are not available, no comparison can be made with them.

HIGH SCHOOL PUPILS

Fifteen New Durham pupils were enrolled in high schools last fall as follows:

Alton High School: Lavinia Gooch, Leon F. Hayes, Mildred Hayes Edward Krisiak, Dorothy C. Miller, and Mabel Wentworth.

Farmington High School: James Fuhrman, Jr., Roberta T. Hayes, Florence B. Patterson, Miriam E. Viele, Winnifred Viele, and Bernice I. Wentworth.

Rochester High School: Lewis Chamberlain, Martha Laney, and Grover Miller.

As six of the pupils are seniors and as there are now seven enrolled in the eighth grade, it is likely that about fourteen will be in high school next year for whose tuitions about $1,050.00 will be needed.

TEACHERS

The following is a list of the names of the present teachers together with their positions and salaries, and the enrollments.

| Teacher | Position | Salary | Enroll. |
|---|---|---|---|
| Emma J. Fuhrman | Ridge | $850.00 | 25 |
| Elizabeth J. Hounsell | Plains Prin. Gr. 5-8 | 950.00 | 18 |
| Elizabeth Parker | Plains Gr. 1-4 | 900.00 | 26 |
| Total enrollment | | | 69 |

INSTRUCTION

Some changes in the instructional content and methods have seemed necessary this year to progressively adapt the schools to the needs of the individual children. As a good reading ability is fundamentally essential to every child if he is to develop normally, much attention has been given to the reading program. A basal system of reading has been adopted for the four lower grades and reading books with accompanying seatwork books have been put into use in those grades. This modern system of reading is widely used and has proved very satisfactory in other districts in this supervisory union during the past few years. The work books accompanying the readers are highly effective in leading children, through interesting seatwork activities, to find pleasure and profit on the printed page. The arithmetic work for these grades has been definitely correlated with the reading. The Number Stories used in the first three grades

have vocabularies that check very closely with the vocabularies of the readers, thus the number work is not made difficult by the use of unusual words. The arithmetics placed in the hands of the fourth grade pupils are designed to give the necessary training in problem solving as well as the necessary drill on the fundamental processes.

Closely related to the development of reading abilities through the new system of reading is the use of current events papers in all grades except the first. These papers which are entitled "My Weekly Readers" for grades two to seven and "The Junior Review" for grade eight, give an opportunity for valuable practice in the mechanics of silent reading and contain material that is most helpful to children in forming worthwhile attitudes towards and concepts of our present social and economic problems. Pupils and teachers are very much interested in them and many parents have spoken to me of the value of this material.

The language workbooks that have been furnished to the third and fourth grades provide much drill in the use of correct language habits.

Some new textbooks in English composition have been purchased for grades seven and eight and more are needed. The children in these grades should be led to acquire the ability to express themselves clearly, both orally and in writing. The emphasis throughout the English work in these grades should be on clear, correct expression rather than on mere knowledge of English forms. The ability to *use* those forms is the ultimate goal and not the *knowledge* of them. The mere fact that one has hands does not guarantee that he uses them with profit to himself and to society. It is what he does with those hands that counts. In the same way mere knowledge of English grammar does not guarantee the correct use of it. It is one's ability to *use* the English language effectively that counts.

What few textbooks there are now available for pupils' use in the study of language and social science at the Plains school in grades seven and eight are not at all suitable, neither are the few health and spelling books, fifth and sixth grade language and arithmetic books, and fifth, sixth, seventh and eighth grade literature books in any of the schools, so that many new books are needed if the pupils are to make the progress in their school work that they should make. Good teachers can accomplish a lot without much to work with but a good teacher plus good materials is a much better investment than just a good teacher. A good chopper cannot accomplish much with a dull axe.

Perhaps the taxpayers of New Durham would be interested in the fact that credit amounting to $37.59 has been received to date for discarded books that have been sent to publishers to apply toward the cost of the new books purchased. Over one-fourth the purchase price of these new books has thus been saved.

### BUILDINGS AND EQUIPMENT

During the summer the interior of the Plains schoolhouse was painted and a few necessary minor repairs were made at the Ridge. One of the biggest problems with respect to school buildings facing the people of New Durham is the alteration of the Ridge schoolhouse to make it suitable for school purposes. The room is too small for the number enrolled, the ceiling is too low for proper lighting and ventilating, and the windows are too poorly placed, too low and too few to admit sufficient light. The present amount of glass area is 55.2 percent of the amount accepted as standard. The eyestrain on all pupils is truly severe. The problem of remedying this condition should receive immediate consideration.

The form of the financial reports this year has been changed somewhat in an effort to make them more easily understood. In the school board's estimate for

1935-36 there is, first, a detailed list of expected expenditures, then a list of expected income from sources other than taxation. The difference between the total amount of expected expenditures, $6,736.49, and the total estimated income, $2,094.00, is $4,642.49, which is the amount, plus $75.00 for hot lunches, the school board is asking to be raised. From the following table it can be seen that this amount is little different from amounts raised for the past few years. The bank holidays of March, 1933, are still affecting the budgets, as $1,046.51 of the New Durham school funds has not yet been released from closed banks.

| | Cash on hand July 1 | State Aid | Appropriations March | Expended July 1 to June 30 |

HEALTH SUPERVISION

I wish to commend to your attention the accompanying report of the school nurse. The health problems of many of the New Durham pupils are truly serious. The milk being furnished by the Federal Government and the hot lunches being served relieve much unvoiced suffering and help greatly in keeping the poor economic condition of several homes from taking too great a toll in child health. I sincerely hope that as the health defects of the children are understood, the nurse will receive full cooperation in correcting them. If the necessary funds can be made available, she will see to it that the work is done.

REORGANIZATION OF THE SUPERVISORY UNION

By the act of the 1933 New Hampshire Legislature the State Board of Education was required to reduce the number of supervisory unions in the state by five in 1933 and by five more in 1934. In the reorganization in the summer of 1934 of the Pittsfield union, Chichester and Louden were removed from it and put into the Penacook union, and Allenstown and Pembroke were removed and put into the new Raymond-Pembroke union. Added onto the Pittsfield union were Farmington from the Milton union, and Alton and New Durham from the Wolfeboro union. Thus this union now consists of the school districts of Pittsfield, Alton, Barnstead, Farmington, and New Durham and is one of the largest in the state. At present fifty-one regular teachers are employed in the union besides one full-time music teacher one part-time music teacher, two teachers of instrumental music, two school nurses, eight adult janitors, and thirty hired transporters. The total pupil enrollment is 1,376, with 301 in the three high schools and 1075 in the elementary schools. The large size of the union makes close supervision impossible, but with the clerical assistance allowed the superintendent and with the fine cooperation of the school boards, teachers, pupils and parents your superintendent has had so far this year, much can be accomplished in the way of progressive educational development.

Respectfully submitted,

LESTER B. BADGER, Superintendent
Supervisory Union, No. 49.

Pittsfield, N. H., February 15, 1935.

# REPORT OF SCHOOL HEALTH WORK

To the Townspeople, School Board, and Superintendent of Schools:

During the half year since I have been appointed to take over the health work in the New Durham schools, I have spent much time studying the needs and conditions of the schools. Only thus can practical plans for carrying on a successful health program be worked out.

A survey of the physical condition of the school children shows the following:

| | |
|---|---|
| Pupils examined | 70 |
| Defects found | 111—1.5 per pupil |
| Defects corrected | 17—15% of defects |
| Without defect | 11—15% of pupils |
| Under weight | 6 |
| Defective vision | 11 |
| Cardiac condition | 2 |
| Orthopedic defects | 1 |
| Defective teeth | 61 |
| Defective tonsils | 28 |
| Defective adenoids | 2 |

As a result of this survey it was decided to first stress the correction of some of these physical defects. Since neglect of defective vision causes more serious trouble than some of the other defects, the eyes received first attention. With the aid of a Federal Fund for the correction of physical defects, 10 of the 11 children with bad eyes were fitted to glasses. Only one child who really needs glasses remains uncared for in the town, and this due only to the lack of signed permission from the parents, without which nothing can be done for any child.

Three children have had dental attention and two have had tonsil and adenoid operations. It is hoped that money can be raised later to sponsor a dental clinic

and that some tonsil and adenoid clinics can also be established.

While corrective work is necessary to build up bodily health in the individual child, health teaching is also important to build up the health of the community. Only by learning and keeping the rules of health living can the health habits be established, and in this way resistance to disease be kept up. Here the teachers are doing a valuable service to the community in teaching and encouraging the practice of health habits. Some of the things the children are learning are the value of fresh air, well balanced diets, milk, and plenty of water inside as well as outside. They are learning something about hygiene, sanitation, the conquest of disease and first aid. In these days of scientific advancement in the conquest of disease, it is hoped that these children will grow up with an open mind regarding whatever discoveries may be made in the future, and ready to utilize such methods as we already have knowledge of to help prevent disease.

As a result of the depression, several children were found inadequately clothed to attend school in bitter weather. Everything possible was done to get proper clothing for these children. Milk is being served daily in the schools in half pint bottles to such children as seem to need it. A case of cod liver oil is being distributed to children who need this building tonic as fast as the needs are ascertained. This is a state and federal project to protect child health during the depression.

I wish at this time to thank the school board, parents, and teachers for their friendly cooperation. I have been pleasantly received into the homes I have been privileged to visit, and am looking forward to the pleasure of getting acquainted with all the parents.

Respectfully submitted,

RUTH S. LANGILLE,

School Nurse.
